JOURNAL

OFFICE OF THE LEGISLATIVE COUNSEL

MONDAY - 27 July 1959

1. Kenneth Belieu telephoned to advise that it is quite possible Senator Lyndon B. Johnson (D., Tex.) would wish to see the Director some time this week. Mr. Belieu was not certain of any specific matters the Senator wished to discuss but wanted to mention this to me. I assured him the Director would be delighted to meet with the Senator.

2. John Newhouse, Senate Foreign Relations Committee staff, telephoned to inquire about annuities for World War II members of underground movements. I explained there were no annuities as such. Apparently a member of the Committee had received a request from a constituent and the information seemed satisfactory.

3. General Cabell called saying that at a reception for Mr. Roundtree he had chatted with Representative Clement J. Zablocki (D., Wis.), who criticized the Agency. Joseph C. Satterthwaite, Assistant Secretary of State for African Affairs, defended the Agency's situation during the Korean War. Mr. Zablocki suggested it might be desirable if he got a more detailed briefing on the Agency. I recommended this strongly to General Cabell, and he will make necessary arrangements, possibly to include luncheon.

4. Mr. Grenville Garside telephoned inquiring if I would meet with him on 28 July. Garside is one of the staff members of the Jackson Subcommittee to study the national policy-making machinery (S. Res. 115). He indicated Mr. Tufts would also be present.

5. Met with George Murphy and John Conway of the staff of the Joint Committee on Atomic Energy, delivering to them an OSI report and making last-minute arrangements for the 28 July briefing. A number of questions were provided by the staff, and they have been furnished to

6. Betty Coats, Senate Foreign Relations Committee staff, telephoned saying that the Moss Subcommittee had forwarded page proofs of a report for her comment. She raised one point concerning the DCI's letter of 30 June 1959, which states that was testifying without benefit of notes whereas the transcript clearly indicates that was speaking from charts in front of him. This is being taken up with OSI.
